REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art, including the newly cited Cooper 2,752,299, does not teach or suggest that a method for forming manganese chloride under anhydrous reaction can be carried out in the presence of an ether solvent even though a solution of HCl in ether solvent is generally known in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

It is noted that in the second after-final amendment, filed May 24, 2006, claims 5, 8, and 10 are identified as "previously presented", however, these claims, in current form, were first presented in the first after-final amendment, filed April 21, 2006, but this amendment was not entered. Therefore, the allowed claims 5, 8, and 10 are considered as "currently amended".

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ngoc-Yen M. Nguyen whose telephone number is (571) 272-1356. The examiner is currently on Part time schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Stanley Silverman can be reached on (571) 272-1358. The fax phone
